

## **We are looking for interested students on Research work on Political democratization**

The research work and especially the neutral research work on different issues of the society is the most important thing to elaborate and analysis the outcomes of the research. And the students' association are the best resources to make such thing happen. And one of them is Vimentis a Swiss Student's association. Since 2003, Vimentis has published neutral texts on votes and other important political issues in Switzerland. Every year they also conduct the largest neutral political online survey and publish blogs of leading national parliamentarians. [www.vimentis.ch](http://www.vimentis.ch)

Solidar Suisse thinks that this is a bright idea and we are looking for the students mainly from Political Science that will be willing to be part of research student teams with students from Switzerland in the fields of Political democratization as part of their integral part of Vimentis research activities.

So the Solidar Suisse is opening the call for interested students to build a similar initiative in Kosovo that will be commitment to academic excellence, relevance and utility for stakeholders, public dissemination and sharing of results.

If you are interested to be part of such initiatives to Gain access to excellent research opportunities within Swiss Student's neutral organization and to become part of a vibrant international research teams on different topics on Political science on democratizations.

Or if you would like to know more about Solidar Suisse or Vimentis, please contact us until December 6<sup>th</sup>, 2019 through:
